Trvácny & rodinný

MKW je rodinný podnik a berie zodpovednosť voči nasledujúcim generáciám a životnému prostrediu veľmi vážne.

Dlhodobo investujeme do našich závodov, aby sme neustále znižovali spotrebu energie a použitú energiu zužitkovali čo najefektívnejšie. MKW používa materiály a suroviny, ktoré v čo najväčšej možnej miere môžu byť opäť použité v produktoch alebo výrobných cykloch.

Kvalita z Rakúska

„Made in Austria“ je medzinárodne uznávaný pojem kvality, ktorý samozrejme platí aj pre WC sedadlá z dielne MKW.

Tieto neustále vyvíjame a vylepšujeme po stránkach použitých materiálov, ich zloženia, trvácnosti, funkcionality a dizajnu.

WC sedadlá z produkcie MKW sú vyrobené z vysoko kvalitného duroplastu. Sú hygienické, majú uzavreté póry, sú hladké, tvarovo a farebne stále a mimoriadne trvácne.

Sustainable & family-owned

MKW is a family-owned company and as such takes its responsibilities to future generations and the environment extremely seriously.

Accordingly, investments are made in the sustainability of company locations, which are aimed at maximum efficiency with regard to energy use and continual reductions in consumption. To the greatest possible extent, MKW also employs raw materials that can be recycled back into a product or production cycle.

Quality from Austria

“Made in Austria” is an internationally respected term for quality that also applies to MKW WC seats. These are object of ongoing further development and improvement with regard to their design, functionality, material composition and durability.

WC seats from MKW are made from high-quality, thermoset plastic. They are hygienic, scratch-resistant, sealed, smooth, distortion resistant, through-coloured and extremely durable.

MKW®

wc sedadlá

Za nepostrádateľnými vecami každodenného života je často viac technológie, dizajnu a inovácií, než by sa mohlo zdať. Samozrejme to platí aj na WC sedadlá z produkcie MKW. Na nasledujúcich stránkach Vám preto chceme poskytnúť prehľad o produktoch z nášho portfólia, ich dizajne a vlastnostiach. Budete prekvapení, koľko nápadov môžete mať v súvislosti s touto témou.

wc seats

It is frequently the case that essential everyday items are backed by a good deal more technology, design and innovation than one might imagine. Naturally enough, this also applies to WC seats, including those from MKW. Therefore, on the following pages, we would like to provide you with an overview of our range, its designs and features. You will be astonished by just how many ideas one can have with regard to this topic.

POMALÉ SKLÁPANIE | Táto funkcia, dostupná pri označených modeloch, zabezpečuje tiché a komfortné sklopenie.

ODNÍMATEĽNÉ | Táto funkcia umožňuje pri označených modeloch ľahké odňatie a spätné osadenie WC sedadla a poklopu (napr. pre účely čistenia).

ANTIBAKTERIÁLNE | MKW pridáva do suroviny antiseptické aditívum, vďaka čomu majú WC sedadlá MKW antibakteriálny účinok. Dokonca ani čistenie, či prípadné škrabance neovplyvnia tento účinok. Štúdie univerzity v Miláne potvrdili antibakteriálny účinok, ako aj dermatologickú znášanlivosť – nepostrádateľné všade tam, kde je hygiena nevyhnutnosťou (medicínske prostredie, hotely, atď.).

NASTAVITEĽNÉ ÚCHYTY | Pri označených modeloch sú použité výškovo aj plošne nastaviteľné úchyty, preto sú WC sedadlá MKW mimoriadne presne prispôsobiteľné ku tvaru WC misy.

RÝCHLE PRIPEVNENIE | Jednoduchým stlačením a vysunutím patentovanej Quick matice smerom hore, namontujte Vaše WC sedadlo rýchlo a jednoducho.

FLEXIBILNÁ MONTÁŽ | WC sedadlo MKW umožňuje montáž tak zhora ako aj zdola. Znamená to, že nemusíte dbať na to, či je WC misa prístupná z boku.

SLOWCLOSE | This function, which comes with certain models, is as quiet as it is comfortable. The seat and the cover close automatically with just a gentle tap.

REMOVABLE | Many of seats (cover and seat) can be removed from the ceramic bowl (e.g. for cleaning and can then be remounted).

ANTIBACTERIAL | MKW introduces an antiseptic additive to its raw materials. Therefore, the WC seats are entirely antibacterial and even scratches and cleaning have no effect on this protection. Studies by the University of Milan have demonstrated both the antibacterial effect of the additive and its dermatological compatibility. This is indispensable where hygiene is a must (medical areas, hotels, etc.).

ADJUSTABLE HINGE | Many of the hinges used are height and direction adjustable. As a result MKW WC seats can be matched to the ceramic bowl with great precision.

QUICK-MOUNTING | Simple compression and pushing upwards of the patented QUICK wing nuts provides quick and simple WC seat mounting.

FLEXIBLE INSTALLATION | The WC seat can be installed both from above and below. This means that lateral access to the ceramic bowl is not essential.

montáž

PRED KÚPOU WC SEDADLA A JEHO MONTÁŽOU, berte prosím na vedomie, že WC misy nie sú normované šírkou, kontaktnou plochou, ani priemerom. Pred kúpou WC sedadla by ste preto mali presne zmerať WC misu. Len tak je garantované, že získate správne WC sedadlo.

mounting

PRIOR TO PURCHASING AND MOUNTING. Please note that WC bowls are not standardised with regard to their width, their bearing surface or diameter. Therefore, before you purchase a WC seat you should measure the precise dimensions of the bowl. This is the only way of ensuring that you purchase a suitable WC seat.

tipy

DOPLŇUJÚCE INFORMÁCIE | Ďalšie informácie o jednotlivých produktoch a priebežne aktualizovaných dokumentoch nájdete na našej webovej stránke: www.mkw.sk

NEZABUDNITE ZMERAŤ | nie každé WC sedadlo je tvarovo použiteľné k danej WC misu. Skica vám ukáže, ako odmerať misu pred zakúpením WC sedadla.

tips

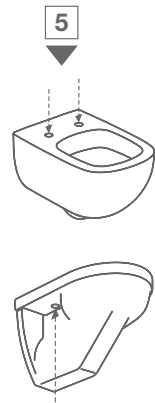

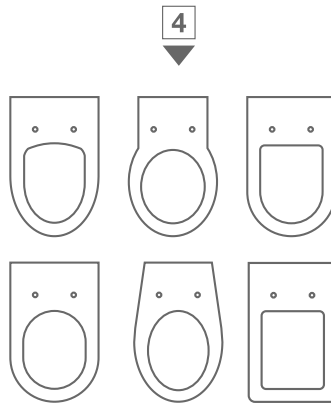

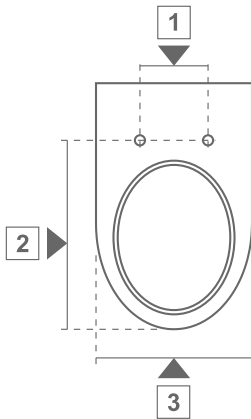

ADDITIONAL INFORMATION | Further information about individual items and continually updated documentation are available under www.mkw.sk

DON'T FORGET TO MEASURE | Remember that not every WC seat and bowl match. The sketch shows you how to measure the bowl before you purchase a seat.

1 Vzdialenosť medzi montážnymi otvormi
The distance between the hinge mounting holes

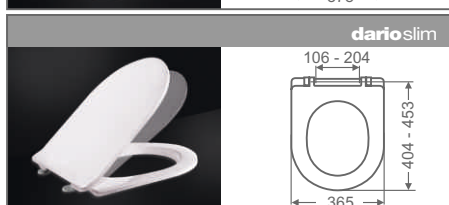

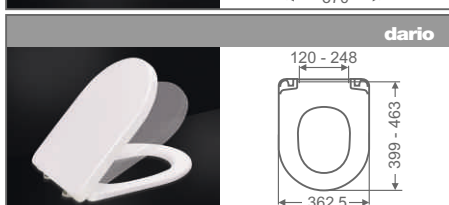

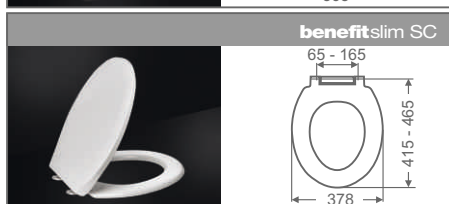

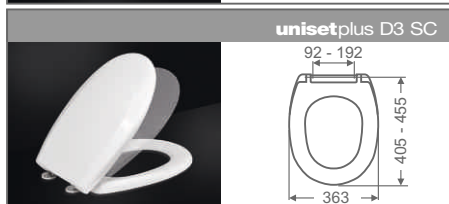

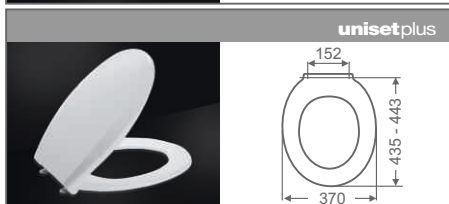

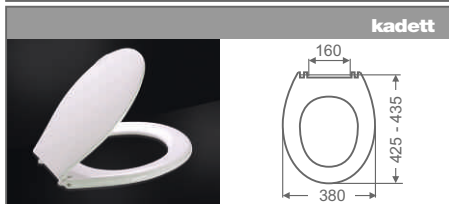

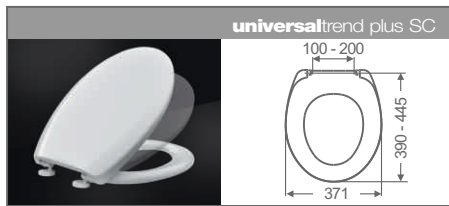

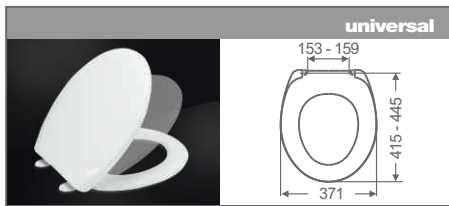

4 Tvar WC misy
The bowl shape

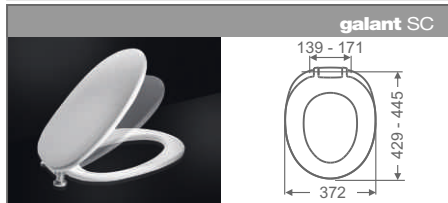

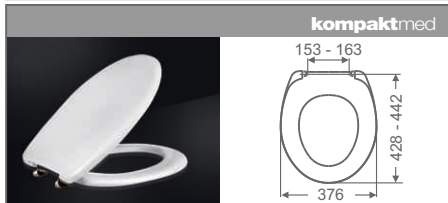

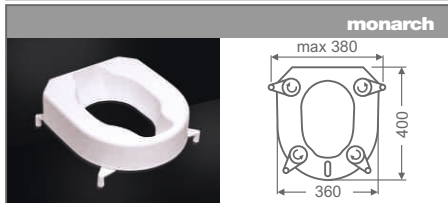

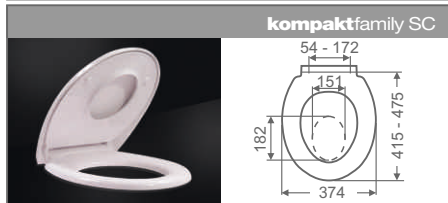

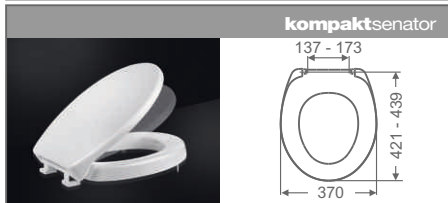

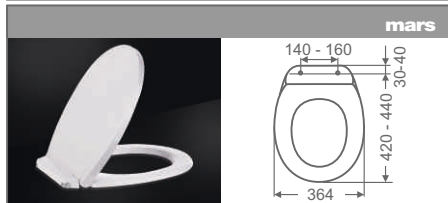

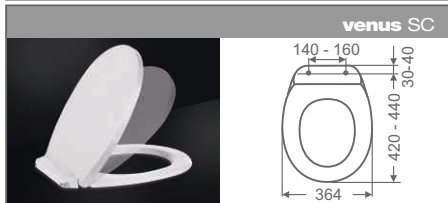

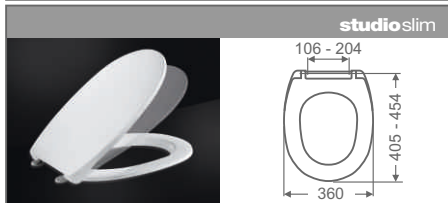

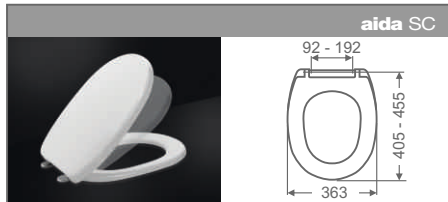

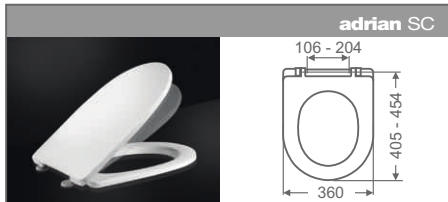

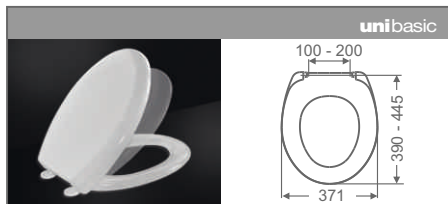

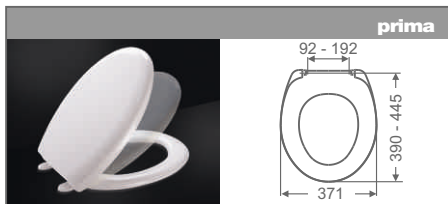

5 Zdola / Zhora montáž
Bottom/top mounted

2 Vzdialenosť od otvorov pre úchyty WC sedadla po prednú hranu WC misy
The width of the bearing surface of the bowl and the front edge of the bowl

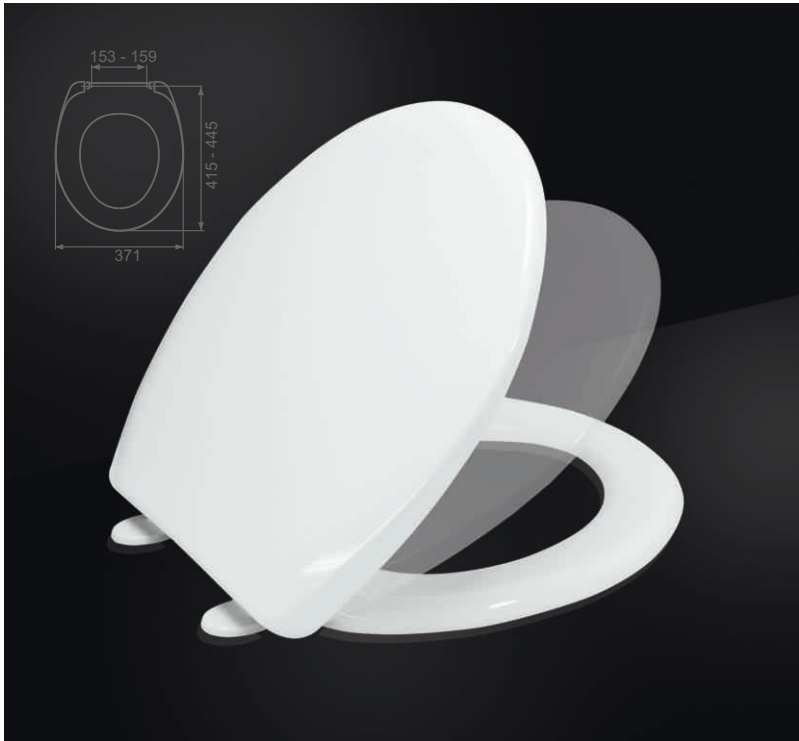

3 Šírka WC misy
The width of the bearing surface of the bowl

údržba / maintenance

čistenie

WC sedadlá MKW sú robustné a určené na každodenné používanie. Na umývanie používajte mydlovú vodu alebo prírodné prostriedky. Nepoužívajte žieravé, abrazívne, chlórové alebo kyslé prostriedky obsahujúce aktívny kyslík, pretože tieto môžu poškodiť povrch WC sedadla. Opláchnite vodou a osušte mäkkou handričkou. WC sedadlo a upevňovacie diely (úchyty) nesmú prísť do kontaktu s prostriedkom na umývanie keramiky. Pokiaľ sa vo WC mise nachádzajú nespláchnuté čistiace prostriedky, nechávajte WC sedadlo v otvorenej polohe.

cleaning

MKW products are tough and manufactured for everyday use. Nonetheless, we recommend soapy water or a mild, natural agent for cleaning. No caustic, abrasive, chlorinated, acidic, or active oxygen agents should be employed, as these can damage the material. The WC seat and hinges should not come into contact with the WC cleaning agents. We also advise that the seat and lid stay raised for as long as stringent cleaning agents remain in the WC bowl.
