PRODUKTOVÝ KATALÓG

WC sedadlá & kúpeľňové doplnky

TRVÁCNY & RODINNÝ

MKW je rodinný podnik a berie zodpovednosť voči nasledujúcim generáciám a životnému prostrediu veľmi vážne.

Dlhodobu investujeme do našich závodov, aby sme neustále znižovali spotrebu energie a použítú energiu zužitkovali čo najefektívnejšie. MKW používa materiály a suroviny, ktoré v čo najväčšej možnej miere môžu byť opäť použité v produktoch alebo výrobných cykloch.

KVALITA Z RAKÚSKA

MADE IN AUSTRIA

„Made in Austria“ je medzinárodne uznávaný pojem kvality, ktorý samozrejme platí aj pre WC sedadlá z dielne MKW.

Tieto neustále vyvíjame a vylepšujeme po stránkach použitých materiálov, ich zloženia, trvácnosti, funkcionality a dizajnu.

WC sedadlá z produkcie MKW sú vyrobené z vysoko kvalitného duroplastu. Sú hygienické, majú uzavreté póry, sú hladké, tvarovo a farebne stále a mimoriadne trvácne.

SUSTAINABLE & FAMILY-OWNED

MKW is a family-owned company and as such takes its responsibilities to future generations and the environment extremely seriously.

Accordingly, investments are made in the sustainability of company locations, which are aimed at maximum efficiency with regard to energy use and continual reductions in consumption. To the greatest possible extent, MKW also employs raw materials that can be recycled back into a product or production cycle.

QUALITY FROM AUSTRIA

MADE IN AUSTRIA

"Made in Austria" is an internationally respected term for quality that also applies to MKW WC seats. These are object of ongoing further development and improvement with regard to their design, functionality, material composition and durability.

WC seats from MKW are made from high-quality, thermoset plastic. They are hygienic, scratch-resistant, sealed, smooth, distortion resistant, through-coloured and extremely durable.

VLASTNOSTI PRODUKTOV / PRODUCT FEATURES

ANTIBAKTERIÁLNE | MKW pridáva do suroviny antiseptické aditívum, vďaka čomu majú WC sedadlá MKW antibakteriálny účinok. Dokonca ani čistenie, či prípadné škrabance neovplyvnia tento účinok.

POMALÉ SKLÁPANIE | Táto funkcia, dostupná pri označených modeloch, zabezpečuje tiché a komfortné sklopenie.

ODNÍMATEĽNÉ | Táto funkcia umožňuje pri označených modeloch ľahké odňatie a spätné osadenie WC sedadla a poklopu (napr. pre účely čistenia).

NASTAVITEĽNÉ ÚCHYTY | Pri označených modeloch sú použité výškovo aj plošne nastaviteľné úchyty, preto sú WC sedadlá MKW mimoriadne presne prispôsobiteľné ku tvaru WC misy.

PUSH BUTTON | Táto funkcia zabezpečí, že jediným stlačením tlačidla sa Vaše WC sedadlo uvoľní z keramiky a rovnako rýchlo sa opäť nasadí a pripraví na použitie.

RÝCHLE PRIPEVNENIE | Jednoduchým stlačením a vysunutím patentovanej Quick matice smerom hore, namontujete Vaše WC sedadlo rýchlo a jednoducho.

FLEXIBILNÁ MONTÁŽ | WC sedadlo MKW umožňuje montáž tak zhora ako aj zdola. Znamená to, že nemusíte dbať na to, či je WC misa prístupná z boku.

ANTIBACTERIAL | MKW introduces an antiseptic additive to its raw materials. Therefore, the WC seats are entirely antibacterial and even scratches and cleaning have no effect on this protection.

SLOWCLOSE | This function, which comes with certain models, is as quiet as it is comfortable. The seat and the cover close automatically with just a gentle tap.

REMOVABLE | Many of seats (cover and seat) can be removed from the ceramic bowl (e.g. for cleaning and can then be remounted).

ADJUSTABLE HINGE | Many of the hinges used are height and direction adjustable. As a result MKW WC seats can be matched to the ceramic bowl with great precision.

PUSH BUTTON | This function ensures that with a single push of a button, your toilet seat is released from the ceramic and just as quickly reattached and ready for use.

QUICK-MOUNTING | Simple compression and pushing upwards of the patented QUICK wing nuts provides quick and simple WC seat mounting.

FLEXIBLE INSTALLATION | The WC seat can be installed both from above and below. This means that lateral access to the ceramic bowl is not essential.

MONTÁŽ

PRED KÚPOU WC SEDADLA A JEHO MONTÁŽOU, berte prosím na vedomie, že WC misy nie sú normované šírkou, kontaktnou plochou, ani priemerom. Pred kúpou WC sedadla by ste preto mali presne zmerať WC misu. Len tak je garantované, že získate správne WC sedadlo.

MOUNTING

PRIOR TO PURCHASING AND MOUNTING. Please note that WC bowls are not standardised with regard to their width, their bearing surface or diameter. Therefore, before you purchase a WC seat you should measure the precise dimensions of the bowl. This is the only way of ensuring that you purchase a suitable WC seat.

VYHLÁDÁVANIE PRODUKTOV / PRODUCT SEARCH

- 1.** Vzdialenosť medzi montážnymi otvormi
The distance between the hinge mounting holes

- 2.** Vzdialenosť od otvorov pre úchyty WC sedadla po prednú hranu WC misy
The width of the bearing surface of the bowl and the front edge of the bowl

- 3.** Šírka WC misy
The width of the bearing surface of the bowl

- 4.** Tvár WC misy
The bowl shape

- 5.** Zdola/Zhora montáž
Bottom/top mounted

ČISTENIE

WC sedadlá MKW sú robustné a určené na každodenné používanie. Na umývanie používajte mydlovú vodu alebo prírodné prostriedky. Nepoužívajte žieravé, abrazívne, chlórové alebo kyslé prostriedky obsahujúce aktívny kyslík, pretože tieto môžu poškodiť povrch WC sedadla. Opláchnite vodou a osušte mäkkou handričkou. WC sedadlo a upevňovacie diely (úchyty) nesmú prísť do kontaktu s prostriedkom na umývanie keramiky. Pokiaľ sa vo WC mise nachádzajú nespláchnuté čistiace prostriedky, nechávajte WC sedadlo v otvorenej polohe.

CLEANING

MKW products are tough and manufactured for everyday use. Nonetheless, we recommend soapy water or a mild, natural agent for cleaning. No caustic, abrasive, chlorinated, acidic, or active oxygen agents should be employed, as these can damage the material. The WC seat and hinges should not come into contact with the WC cleaning agents. We also advise that the seat and lid stay raised for as long as stringent cleaning agents remain in the WC bowl.
